Brief portfolio Mathieu CRESSOT

My app's

The Colors
App's will be in black and white Basic Colors.

It is divided into four parts:

-The first welcome with my story but also two black background links written in white which will amarinerons with each one: menu project alone as well as to the common project menu.
By clicking on one of the menu items,

-We will go into a menu with all the projects done alone or the projects carry out in common.
All will depend on where you click.

A contact form in order to release, with a text location e mail name and a name frame.

Technology uses

The techno use its: Angular 2, IONIC framework. Server side I use Apache Cordova.
